DETAILED ACTION

1. Applicants' response to Election/Restriction has been received on 2/23/11.
2. The text of those sections of Title 35, U.S.C. code not included in this action can be found in the prior Office Action.

Election/Restrictions

3. Applicant's election of claims 30-38 in the reply filed on 2/23/11 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

The requirement is still deemed proper and is therefore made FINAL.

Priority

4. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

5. The information disclosure statement (IDS) submitted on 5/19/08, 5/5/08, 1/31/11 was filed. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Drawings

6. The drawings were received on 5/19/06. These drawings are acceptable.

EXAMINER'S AMENDMENT

7. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please delete claims 20-29.

In claim 30, line 5; please delete "causing" insert "guiding"

In claim 30, line 6 please insert, " with a pair of nozzles" in between "membrane" and "."

In claim 38, line3, please delete" for causing" and insert "that provides"

In claim 38, line 5, please delete "for causing" and insert "that guides"

The amendments are necessary so that limitations are positively recited and taken out of intended use limitations and no further restrictions are necessary.

Allowable Subject Matter

8. Claims 31-38 are allowed.

9. The following is an examiner's statement of reasons for allowance: the instant claims are to a process and product for producing a fuel cell having an electrolyte membrane being held between a pair of separators, the process and the product comprises a separator arrangement with an electrolyte membrane intrusion process for guiding the electrolyte membrane to enter the gap by applying a conveyance airflow to both sides of the electrolyte membrane with a pair of nozzles.

10. The prior art JP 2001-236971 to Kazuhiko discloses that a process and product for a fuel cell comprising an electrolyte membrane to enter the gap between two separators by applying a conveyance airflow to both sides of the electrolyte. The conveyance air flow is provided by simply moving the electrolyte through the process. The Kazuhiko reference illustrates rollers that is for coating but it is unknown if these rollers would provide the airflow necessary for guidance of the electrolyte. Therefore, the prior art does not disclose, nearly disclose or provide motivation to modify the process to comprise nozzles that would provide airflow that is capable of guiding the electrolyte into the gap.

11. The prior art PCT JP04/11727 to Masafumi using US Publication 2006/0216563 as a translation discloses a method of making an MEA used in a fuel cell that would inherently require a separator. While putting the MEA in between two separators is obvious, the Masafumi reference does not disclose, nearly disclose or provide motivation to modify the process of making the fuel cell by providing a electrolyte membrane into a gap made by two opposing separator by guiding the electrolyte membrane to enter the gap by applying a conveyance airflow to both sides of the electrolyte with a pair of nozzles

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to HELEN O.K. CONLEY whose telephone number is (571)272-5162. The examiner can normally be reached on Monday-Friday 8am-4:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Ryan can be reached on (571) 272-1292. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
